CONFIGURATIONS & FFG SERVICE

Standard foam

Pick-and-pluck PU foam, lid cushioning and base padding

Empty case

Without foam, for your own interior arrangement.

Custom PE or EVA padding

Insert design, prototyping and manufacturing managed by FFG.

Supply by quotation. Single-case sample making available; individual stock purchases not currently offered. Share equipment, layout, transport conditions, quantities and destination.

Dimensions describe the case shell, before allowing for foam and equipment clearance. Custom interiors change usable space and total weight. Fit and any required protection tests are agreed for the quoted configuration.
